

**DETAILED ACTION**

This is a notice of non-responsive amendment. Claim 20 has been cancelled. Claims 1-19 and 21 are pending.

***Response to Amendment***

1. The reply filed on 03 August 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the applicant has not submitted drawings as requested in the office action dated 21 December 2006, quoted "the complete invention as claimed (e.g. the panel with both top and bottom belts). Further, per Claim 20, the drawings fail to show each panel being made from two metal sheets made in the form of a box." See page 3 of the above dated action. The examiner noted submitted Figure 8, but this does not show a completed invention. The examiner respectfully requests a drawing of the completed apparatus and a drawing to satisfy the limitation of Claim 20. As an additional aside, if figure 8 is intended to be an exploded view of the claimed invention, it is to be bracketed to comply with MPEP § 608.02(h)(1). The amendment to the abstract is acceptable. The amendment to claims 1 and 5 to overcome the 35 USC §112 rejection is acceptable. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or**

**THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
